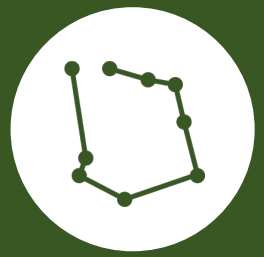
flowplan

# Solution

## Reduce operational costs and increase customer satisfaction with **digitalization**



**Save time and money.**
Improve operations with optimized logistics

**Reduce break-downs.**
A maintained system is a reliable and cost-effective system

**100% universal.**
Managing assets just got easy.
Works on **all** machine types

flowplan

# Hardware

- Beam + Flowmeter
- 100% plug-n-play – **installation in <5 minutes**
- In-line flowmeter for best-in-class precision
- Dedicated GSM IoT-network – **No need for WiFi**
- Fully encrypted and 100% hacker proof
- Works on all machines no matter age and brand
- Automatic leak detection
- Up to **5 years** battery life – no need for 230V

# Backoffice – Powered by AI

- 100% custom software platform
- Your own dashboard
- Automatic maintenance planning
- Automatic water filter planning
- Historical consumption data
- Automated classification algorithms
- Leak detection
- Cloud-hosted

Let's change maintenance
