

## About Piper:

[Piper, Inc.](#) founded in 2014, and located in San Francisco, CA is an award-winning STEAM education company committed to providing quality STEAM learning experiences to students in K-12 classrooms around the globe. Piper creates classroom solutions that are student-centered, hands-on and backed by the most current pedagogy. Piper supports educators with an easy to implement curriculum for teaching STEAM that is standards-aligned along with teacher professional development to ensure successful implementations. Piper's goal is to build confidence in STEAM through project-based learning, spread digital fluency to students of all backgrounds and inspire the inventors of tomorrow. The Piper Computer Kit is available for the classroom and for individual learners at home. Piper is available for purchase at <https://www.playpiper.com/products>.
