

Geneva Community Power

The path to 100% renewable generation

Geneva Community Power provides renewable energy to residents and businesses in the NY Finger Lakes region.

The Town of Geneva has partnered with energy consultant Joule Community Power to establish and offer Geneva Community Power, a local renewable energy program.

Lower your electricity costs by 10% for 25 years

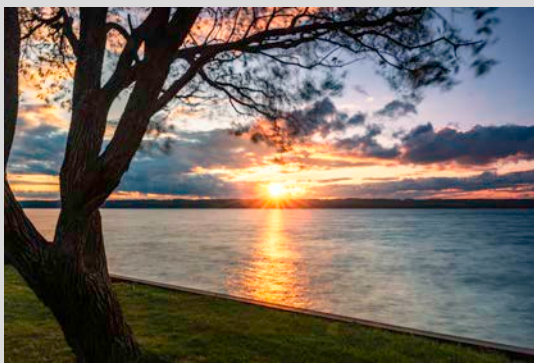

Support renewable energy generation

Reduce your carbon footprint

Help Geneva earn \$25,000 for storm water control

Sign up for renewable energy to help Seneca Lake!

Provided that 400 people enroll, Geneva will receive a \$25,000 grant that will be used for a storm water control project benefiting Seneca Lake. The grant can also be used to secure matching funds.

Storm Water Control

Watershed retention projects control the flow of water upstream so there is less damage downstream.
