

For Immediate Release,

14th June, 2017.

TerrAztra Space Exploration Company is a startup company and is working on human space exploration. We have access to International Space Station through MOU with **Country of Space Tourism, RUSSIA.**

We will be launching our “Project Terranaut” where 14 people will be selected and undergo Astronaut training in Russia during 2018 FIFA WORLD CUP.

One of the 14 selected will have the opportunity to fly to stratosphere.

The qualification should be aged 18 and above. We don't care about Education, Gender and Nationality.

We are proud to announce that we can send tourist to ISS and can provide all the comprehensive trainings for the space tourists flown via “SOYUZ – MC” from the territory of Cosmodrome Baikonur from 2019.

Notes to editor:

Our Start up was one of the top 500 in PIONEERS FESTIVAL, 2017.

<https://pioneers.io/events/pioneers17#/participants/95/startups/details/12360>

Here after terminology for space travelers created will be certified as Terranauts and at the successful training outcomes they will be provided with certificates.
