Spacing

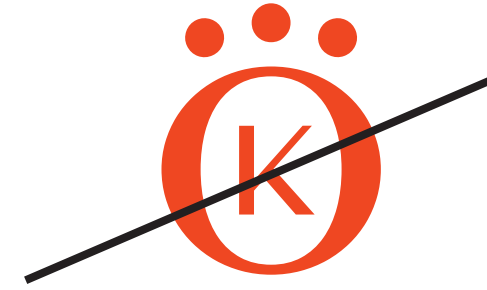

Maintaining a clear space around the logo maintains its integrity and allows it to properly stand out on the page. This clear space is determined by measuring the the height of the “ring.”

Do NOT do the following...

Do NOT “double up” the logo. When using the secondary logo, it should NOT be locked up with—or in close proximity to—the primary logo

Do not modify any elements of the logo(s).

Do NOT adjust the size or relationship of any elements of the logo

Do NOT adjust the size or relationship of any elements of the logo

Do NOT change colors of the logo. It should always be used in one-color

Do NOT change colors of the logo. It should always be used in one-color
